Product highlights

Front panel touch controls Thanks to the touch buttons, no need to open your wine cellar to manage it. The white LED digital display offers an elegant design and precise information. You can also illuminate your cellar without opening the door to showcase your wine collection.

Hygrometer To monitor the preservation of wine in optimum conditions, the hygrometer, integrated into the rack, is an essential tool for measuring the humidity level in the cellar to ensure that it corresponds to the ideal setting for the wine.
